## The second vaccination is a set with the first.

The second vaccination is three weeks after the first one, at the same venue and at the same time. If you do not take the first vaccination, the second one will automatically be cancelled as well, so please reschedule your appointment.

## For consultation on side reactions

After vaccination, most people will have a side reaction, but if you are concerned, call below.

☎ 050-5445-2369  
Daily 9:00 - 17:00

## Notes on Vaccinations

Please cooperate with us to avoid congestion and ensure a smooth vaccination process.

## Arrive at the venue on time.

If you come earlier than the designated time, the reception desk and parking areas will be crowded. Please come to the venue according to your reserved time.

## Don't forget to bring your ID.

To manage the vaccination without error, we will verify your ID. Please make sure to bring your health insurance card, driver's license, etc. If you cannot be identified, you cannot be vaccinated.

## Fill out the form in advance.

Please fill out one of the medical pre-examination form before arriving at the venue.

## Wear clothes that show your shoulders.

Unlike the Influenza vaccine and blood collection, the covid-19 vaccine is shot close to the shoulder.

Evacuation information has changed

Alert Level 4

## Everyone must evacuate by “Evacuation Order”

So far, many people delayed evacuation because they could not decide whether they should evacuate immediately or wait and see when a warning or alert was issued.

For this reason, the "Evacuation Advisory" at alert level 4 has been eliminated, and when an **"Evacuation Order"** is issued, everyone must evacuate to a safe place.

Every year, typhoons, short duration heavy rains, and concentrated heavy rains take many lives and property all over Japan.

It is important to collect information on typhoons and heavy rains through TV, radio, and wireless radio, and to take action as soon as possible.

### Check for new evacuation information and actions you should take.

Warning level, Evacuation information		Situation, Actions to be taken	Previous evacuation information
5	Emergency Safety Assurance	<b>Disaster occurred or imminent</b>	Disaster Information
		<b>Lives are in danger! Act now to save lives.</b> ※It will be announced only after grasping the situation of disaster certainly.	
4	Ordering evacuation	<b>High fear of disaster</b>	Evacuation order, Evacuation advisory
		<b>Evacuate everyone from the danger zone.</b> Evacuate everyone to a safe place without waiting for a level 5 to be announced.	
3	Evacuation for the elderly	<b>Fear of disaster</b>	Prepare to evacuate, Start of evacuation for the elderly.
		<b>Evacuate the elderly from danger zone.</b> Evacuate to a safe place if you are elderly or if it will take a long time to evacuate. Others, be prepared.	
2	Heavy rain, Flood warning	<b>Weather conditions worsen.</b>	
		<b>Check evacuation actions.</b> Check your evacuation site and emergency supplies.

### How to contact family and confirm their safe

Families may not always be together when disaster strikes. Decide with your family how to contact each other and how to confirm your safety in case of emergency.

When a disaster strikes, phone lines become congested and difficult to get through due to the large number of calls to the disaster area. First, it is important to evacuate yourself to a safe place and inform others that you are safe. Please use a disaster message dial or the triangular contact method to relay distant relatives etc.

#### Disaster Message Dial "171"

It can be used when the number of calls in the disaster area increases and it becomes

Record	171→1→Phone no.→Record message
Play	171→2→Phone no.→Play message

#### Let's experience it.

- 1st, 15th of every month
- 1 - 3 January
- Disaster Prevention Week  
(30 August to 5 Sep) 9:00 - 17:00
- Disaster Prevention and Volunteer Week  
(15 - 21 January) 9:00 - 17:00

#### Triangular contact method

### Notice

### Japanese Encephalitis Vaccination

Japanese encephalitis is a disease that can be spread by mosquito bites and often results in death or permanent disability. There is no effective treatment for this disease, so it is important to be vaccinated. Please check the number of times you have been vaccinated in your maternal and child health handbook, and if you have not completed the first trimester (3 times) and the second trimester (1 time), please get vaccinated for the missing number of times.

People born between April 2, 2001 and April 1, 2007 can also be vaccinated at public expense until the day before they turn 20.

**Place** Medical institutions within the city

Please inquire if you need vaccination outside of Fuji City or Fujinomiya City.

From this fiscal year, a request form is NOT required for routine vaccinations at medical institutions within Fuji City.

**Eligibility** 1st term: 1 day before 6 months - 1 day before 7 years and 6 months

2nd term: 1 day before 9 years old ~ 1 day before 13 years old

**Others** For those who will turn 9 years old in 2021, a notice will be sent next year.
