To protect your family and reduce the burden on the medical staff, be sure to thoroughly take infection control measures.

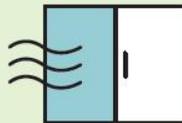

Wash your hands frequently.

Sanitize your hands.

Ventilate frequently.

Avoid the 3Cs*.

If someone is suspected of being infected

Separate rooms.

Everyone wears a mask.

Take care of him/her by a limited number of people.

Sanitize common areas.

Viruses attached to objects are said to remain infectious for several days.

If there is an infected person in the household, please be very careful not to spread the infection.

- Take a bath last among family members.
- Put garbage in a plastic bag and close it before throwing it away.
- Have meals in a separate room.
