## Please Consider Vaccination 検討を

The infection is spreading rapidly. During the year-end and New Year's season, there are more opportunities to have dinner together, and the risk of spreading the infection can be increased. In addition to basic infection control measures, please consider vaccinations as soon as possible.

### Vaccine against Omicron strain

Those who meet all of the following conditions can be vaccinated.

- Over 12 years old 
- Already received the 2nd, 3rd, or 4th vaccination.
- 3 months have passed since the last vaccination.
- Receiving a vaccine against Omicron strain for the first time.

#### ■ Mass Vaccination

Type of Vaccination <small>種類</small>	Pfizer/ Moderna

#### ■ Individual Vaccination

Place	36 medical institutions in the city
Type of Vaccination <small>種類</small>	Pfizer

### Vaccines for infants and children

The infection is spreading among children. Children with no underlying medical conditions are increasingly becoming infected and becoming seriously ill or even dying. Vaccines for infants (6 months to 4 years) and children (5 to 11 years), as well as those for adults, are expected to be effective in preventing the onset and severe disease. Once you receive your vaccination ticket, you can make an appointment online or by phone. Please consider vaccinations as soon as possible.

The latest information on the vaccination is posted on the city's official website.
