Garbage / Recycling

Inquiry

Life Environment Division (Seikatsu Kankyo-ka)
☎ 0544-22-1137

Monthly goal for
each person

Let's reduce the amount of
garbage by one ear of corn

Separate collection of plastic waste

Since separate collection of plastic waste began in April 2024, we have collected 1,090 tons of plastic per year and reduced combustible garbage by approximately 3,200 tons.

Collection volume by type

Unit: tons(t)

	FY2023	FY2024	Difference
Combustible garbage	23,276	20,029	△3,247
Plastic	—	1,094	

Collected plastic

Collected plastic is recycled into items such as flower pots. Separating waste reduces the amount of combustible garbage, cuts disposal costs, and prolongs the life of incinerators at the Cleaning Center.

Plastic that cannot be recycled

If foreign objects such as metal are mixed, it cannot be recycled and must be disposed of as waste. We regularly check for foreign objects, and the percentage of foreign objects mixed in is decreasing with each Investigation.

Percentage of foreign objects mixed with plastic

FY2024, 1st time	FY2024, 2nd time	FY2025, 1st time
5.5%	4.5%	1.7%

Items that cannot be disposed of as plastic waste

Items that are dirty or have metal parts that cannot be removed cannot be disposed of as plastic waste.

Dirty items
↓
Combustible garbage

Items with metal parts
↓
Non-combustible garbage
(Sharp items should be wrapped in newspaper, etc.)

Plastic string longer than 50 cm
↓
Combustible garbage
(if less than 50 cm → plastic waste)

We are collecting used cooking oil

Used and expired cooking oil are collected at gas stations and branch offices in the city. After collection, they are recycled into fuel for generators and floor wax, etc.

ID 312

Location of collection containers

Let's work on reducing garbage!

Drain any fluids from food.

70-80% of food waste is fluid. Draining any fluids from food waste before disposal makes garbage bags lighter and prevents bad odors.

Tips for draining

- ① Peel vegetables before washing them, so that food scraps do not get wet.
- ② Use a drain net.
- ③ Leave food waste in a sink strainer overnight to dry.

Use up all the food in the refrigerator.

Check the expiration dates and condition of food in your refrigerator regularly, and try to use up all your food without wasting anything.

Notice

August 11 (Mon/public holiday) - 15 (Fri)

Only combustible garbage and plastic waste
will be collected.

August 13 (Wed) - 17 (Sun)

Urine pumping service will not be available.

Schedule from August 1st to September 10th■ First-aid Medical Treatment Center (*Kyukyu Iryo Center*)
